

Vesta's Aurora collection embraces the bold elegance of steel with the warmth of wood. This line features a myriad of imaginative finial designs, which incorporate a combination of rich earth tones and refined brass hues. The mixed media combinations produce a stunning palette of textures suitable for a variety of design environments.

COLLECTION NOTES:

Vesta recommends additional brackets every 5-6 feet with this collection to properly support the weight of your treatment. For the purpose of quoting, we loosely figure 4 rings per foot - your drapery workroom can provide a more accurate quantity. Tube lengths exceeding 120" will incur significant additional freight charges. The collection's tube splice can be used to achieve longer spans - the required center bracket will help conceal the resulting seam.

ABBREVIATION KEY:

D = diameter
H = height
L = length
P = projection
W = width
ID = inside diameter
OD = outside diameter

AVAILABLE FINISHES:

BB = brushed brass
BN = brushed nickel

COMPONENT SPOTLIGHT

Featured below is a diagram of this collection's Shackleton bracket showing all the individual components. To install, first attach the wall mount (1) into a solid surface, then slip the face plate (2) over the wall mount. Next, slide the stem (3) over the wall mount and tighten into place with set screw (4). Next, position the pole in place and secure it using set screw (5). Lastly, hide the set screw by tightening concealer screw (6).
