

Vesta's Gaudi collection skillfully unites brass and wrought iron construction to create a new and dramatic line of drapery hardware. Elegantly bold and unique finial designs help bridge the typical gap between traditional and contemporary décor. This collection's 1½" diameter tubing makes it suitable for longer expanses, where strength and fashion coalesce.

COLLECTION NOTES:

Vesta recommends additional brackets every 5-7 feet with this collection to properly support the weight of your treatment. For the purpose of quoting, we loosely figure 4 rings per foot - your drapery workroom can provide a more accurate quantity. Tube lengths exceeding 120" will incur significant additional freight charges. The collection's tube splice can be used to achieve longer spans - the required center bracket will help conceal the resulting seam.

ABBREVIATION KEY:

- D** = diameter
- H** = height
- L** = length
- P** = projection
- W** = width
- ID** = inside diameter
- OD** = outside diameter

AVAILABLE FINISHES:

- AB** = antique brass
- AN** = antique nickel
- BN** = brushed nickel (tubing only)

COMPONENT SPOTLIGHT

Featured below is this collection's Tangier's bracket. The bracket ships in one piece but for mounting and customizing purposes comes apart as shown here. The plate is mounted to the wall first (preferably into wall studs), then the bracket base can be threaded onto it.

part no. 282311

gaudi collection

1 1/8" diameter
bracket required every 5 - 7 feet
