Vesta's Metalmorphosis collection features stylishly sleek, precision-machined hardware and designed to enhance modern spaces. Form and function unite with this affordable in-stock product group.

COLLECTION NOTES:

Vesta recommends additional brackets every 5-6 feet with this collection to properly support the weight of your treatment. For the purpose of quoting, we loosely figure 4 rings per foot - your drapery workroom can provide a more accurate quantity. Tube lengths exceeding 120" will incur significant additional freight charges. The collection's tube splice can be used to achieve longer spans -the required center bracket will help conceal the resulting seam.
