

The Rhaetia collection is a classic wrought iron product which superbly delivers traditional finial designs. These designs blend strength and old world charm to create an understated sense of refinement. The collection additionally features finial/bracket combinations and hammered or twisted rod. All hardware and finishes are stocked at our location and are available for quick shipping.

COLLECTION NOTES:

Vesta recommends additional brackets every 3-5 feet with this collection to properly support the weight of your treatment. For the purpose of quoting, we loosely figure 4 rings per foot - your drapery workroom can provide a more accurate quantity. Rod lengths exceeding 120" will incur significant additional freight charges.

ABBREVIATION KEY:

D = diameter
H = height
L = length
P = projection
W = width
ID = inside diameter
OD = outside diameter

rhaetia collection

COMPONENT SPOTLIGHT

Featured at left is one of this collection's finial/bracket combinations. Areas of grey represent the spot-welded, permanently attached finial. The collection's twisted or hammered rod rests between the brackets at point "1" - then screw "2" and latch are tightened down to hold rod in place. Brackets should always be mounted into wall studs or other solid surfaces.
