

Vesta's Techno Track collection is hand-traversing and designed with extensive one-way draws in mind. The collection's Techno brackets support the aluminum extruded tracking from above thus allowing all glider hooks unfettered access across the entire bottom rail of the track. Precision engineering and style unite in this highly useful contemporary product group.

## Collection In Brief

### AVAILABILITY:

in-stock, typically ships within 24-48 hours

### AVAILABLE FINISHES:

- AB** = antique brass
  - BB** = brushed brass
  - BN** = brushed nickel
  - PB** = polished brass
  - PC** = polished chrome
  - PCP** = polished chrome premium
- \*finish on brass vs. aluminum may vary slightly

### MATERIALS:

aluminum, brass

### DIAMETER & BRACKETS:

-   $\frac{3}{4}$ "D: bracket required every 3-5 feet
-   $1\frac{1}{8}$ "D: bracket required every 5-7 feet

### STYLE:

Modern & Contemporary

### SHIPPING & ADDITIONAL NOTES:

Rail lengths exceeding 106" will incur significant additional freight charges. The collection's track connector can be used to achieve longer spans. When joining tracks, the cut produced will be noticeable and roller glides are the preferred choice for smooth operation.

### ABBREVIATION KEY:

- D** = diameter
- H** = height
- L** = length
- P** = projection
- W** = width
- ID** = inside diameter
- OD** = outside diameter

## Techno Track

### COMPONENT SPOTLIGHT

The photo at left shows the Contempo track support (part #289912) that's part of this collection. The track support (1) sleeve slides over and tightens via a set screw to the stem of the Contempo bracket (2) from our Modern Classics collection (pg. 48-49) changing it from a single bracket system to a double bracket system where the rail closest to the wall becomes a track that accepts glider hooks or roller glides. The closed portion of the bracket (3) will accommodate regular tubing. Hidden set screws hold everything in the proper place. Track supports (1) are available for all Contempo and Modern brackets from the Modern Classics collection.

# Techno Track collection

exquisite accents for expert tastes

▲ 3/4" diameter  
bracket required every 3 - 5 feet

▼ 1 1/8" diameter  
bracket required every 5 - 7 feet
