

Ferraforte

Inspired by historical iron castings, the styles in Ferraforte range from classic to contemporary. Design is influenced by traditional ironwork from around the world.

HAND-DRAW TRAVERSE SYSTEM FEATURES

- NEW! Hand-draw traverse kits available in 4' and 8' lengths. One-way draw and center draw traverse options available.
 - Hand-draw traverse adds the utility of full drapery movement across the entire rod due to specially-designed top-mount brackets.
 - 1" brackets have a 3.5" projection.
 - 1" rod includes nylon glides, which provide for smooth and easy movement of draperies.
- **One-way draw traverse kits include:**
 - Aluminum traverse rod, 16 glides for 4' and 32 for 8', 1 master carrier with overlap arm, aluminum, top-mount brackets (2 for 4', 3 for 8'), and 2 end stops.
 - One-way draw features reversible master carrier arm so that draw can either be from the left side or the right side.
- **Center draw traverse kits include:**
 - Aluminum traverse rod, 16 glides for 4' and 32 for 8', pair of master carriers with overlap arm and standard arm, aluminum, top-mount brackets (2 for 4', 3 for 8'), and 2 end stops.
 - Center draw features reversible master carrier arms (standard and overlap) so overlap can be left over right or right over left.
