## PREMIUM TRAVERSE SYSTEM FEATURES

- Premium, single track, center-draw traverse rod systems are available in both 4' and 8' lengths.
  - Heavy-duty aluminum tracks are of the highest quality.
  - Superior strength performance. Maximum fabric weight: 6 pounds per foot.
  - Tracks are powder-coated inside and out in a brown finish, and sealed with a factory-applied dry-lubricant. This patented finishing technique allows for smooth operation and effortless glide of drapery across the rod.
- **Premium hand-draw system** includes 2" wood rod, aluminum track and clear acrylic wand. Track is fitted with Klick glides (14 with 4' and 28 with 8'), left and right master carriers, end caps, and 3" aluminum wall brackets with 2.5" projection (3 for 4', 4 for 8').
- **Premium c-ring hand-draw system** includes same as above, but track is instead fitted with c-ring glides and master carriers and includes decorative wood c-rings (16 with 4' and 32 with 8').
- **Premium corded traverse system** includes 2" wood rod and aluminum track. Track is fitted with Klick glides (14 with 4' and 28 with 8'), left and right master carriers, right-side cord control with 6' cord drop, mounted cord pulley, and 3" aluminum wall brackets with 2.5" projection (3 for 4', 4 for 8').
- **Premium c-ring corded traverse system** includes same as above, but track is instead threaded with c-ring glides and master carriers and includes decorative wood c-rings (16 with 4' and 32 with 8').

UNFINISHED

SHERATON FINIAL, PINECONE FINIAL, SCALLOP FINIAL AND 2" FLUTED ROD SHOWN IN UNFINISHED

## HARDWARE FEATURES

- ☐ 6 finial choices
- ☐ All hardware is hand-carved and is available in 4 finishes: Cherry, Mahogany, Chestnut and Oak.
- ☐ Select styles are available in unfinished: Pinecone finial, Scallop finial, Sheraton finial, Rosette tieback, standard bracket, fluted rod (4' and 8'), and rings.
  - Due to the variety of wood types used, variation in the wood coloration of the unfinished piece is apparent. We recommend painting as opposed to staining, as painting allows for more consistent coverage.
- ☐ Hand-finishing creates color variation that is to be expected and appreciated; it is part of the inherent beauty of this collection.
- ☐ A center support is recommended on any rod lengths of 8' or greater.
- ☐ All items are shown in the cherry finish.
- ☐ The collection is exclusive to Robert Allen.

*This collection is exclusive to Robert Allen.*
