

italian baroque collection

COMPONENT SPOTLIGHT

Featured above is this collection's swing rod. To install, first securely install bracket (1) into a wall stud or other solid surface. Then swing arm (2) slips into the bracket allowing it to freely swing 180°. The last item to mount is the swing arm rest (3) which should be mounted near the end of the arm to support the weight

of the swing arm and your treatment when it's in the desired position. Expect slight sagging when swing arm is unsupported. All components shown will be packaged together when you place an order for part no. 901475. Available in the following finishes: AB, BB, BN, OB, PB and PC.

Vesta's Italian Baroque collection features bold finial styles that beautifully bridge the typical gap between traditional and contemporary design styles. New in-stock items and our new finish, Old Black, are both displayed on page 22. And the collection's new available finish combinations are shown on page 23. All these fresh options enable the Italian Baroque collection to become a more viable solution to most design challenges you're likely face.

COLLECTION NOTES:

Vesta recommends additional brackets every 5-7 feet with this collection to properly support the weight of your treatment. For the purpose of quoting, we loosely figure 4 rings per foot - your drapery workroom can provide a more accurate quantity. Tube lengths exceeding 120" will incur significant additional freight charges. The collection's tube splice can be used to achieve longer spans - the required center bracket will help conceal the resulting seam.

ABBREVIATION KEY:

D = diameter
H = height
L = length
P = projection
W = width
ID = inside diameter
OD = outside diameter

AVAILABLE FINISHES:

AB = antique brass
BB = brushed brass
BN = brushed nickel
MB = mixed brass (page 23)
MN = mixed nickel (page 23)
OB = old black (page 22)
PB = polished brass
PM = polished mix (page 23)
PC = polished chrome
SM = satin mix (page 23)
